30th October 2015

Dear Jo

I am writing to thank you for your fantastic fundraising of £1875.00, in support of Bristol Urological Institute, here at Southmead Hospital. The money you raised through your awards dinner and ceremony will be used to make a real difference to the thousands of patients who are treated within the North Bristol NHS Trust every year.

These monies raised will make a significant contribution to their work. The BUI continue to raise awareness of the importance of developing a national screening programme for prostate cancer, similar to that of Breast Cancer screening, to improve early diagnosis and reduce mortality rates. Our work with robotic surgery will continue to progress as will further research into non-invasive treatments and new drug treatments. Another ambition for the near future is to develop a dedicated Biobank which will help lab based research and quicken the rout to patient treatment.

Southmead Hospital Charity raises funds to support the healthcare services at Southmead Hospital, Cossham Hospital and in the Bristol, South Gloucestershire and North Somerset communities. Working alongside our clinical teams, therapeutic support staff and our patient community, we raise funds for projects that are beyond the remit of the NHS.

We have added you to our records and would like to keep you informed of future fundraising events that support the work of Southmead Hospital Charity. If you do not want to receive any future correspondence from us, please don't hesitate to contact us.

We are incredibly grateful to you for your generous support and cannot thank you enough for helping us to make Southmead Hospital even better.

Yours sincerely,

Anita Rummels
Fundraising Assistant
